

MoU with Soda Factory

The Entrepreneurship Development (ED) Club of Sree Narayana College, Sivagiri, Varkala, signed a Memorandum of Understanding (MoU) with M. Baiju, establishing a collaborative initiative to create an incubation centre named "Soda Factory." This partnership aimed to enhance student exposure to entrepreneurship by facilitating hands-on learning experiences. As part of the agreement, the ED Club provides space, infrastructure, and utilities for the Soda Factory, while the Soda Factory contributes capital, manpower, and essential machinery. Following the signing of the MoU between the Entrepreneurship Development (ED) Club of Sree Narayana College, Sivagiri, Varkala, and M. Baiju, several activities were initiated to familiarize students with the working of the Soda Factory. The ED Club organized field visits to the factory, providing students with valuable insights into the operational aspects of running an enterprise. During these visits, students observed the soda-making process, learned about the functioning of the machinery, and understood the roles of manpower and resource management in maintaining efficiency. These interactive sessions allowed students to bridge the gap between theoretical knowledge and practical application, equipping them with hands-on experience in entrepreneurship. This collaborative initiative became a platform for students to explore business operations, thus aligning with the ED Club's objective of fostering entrepreneurial skills.
