DEPARTMENT OF ZOOLOGY
Report of visit on Institutions with MoU in 2023

Department of Aquatic Biology and Fisheries, University of Kerala

Semester IV BSc. Zoology students of our department visited the Laboratories, research centers and museum of Department of Aquatic Biology and Fisheries as part of the institute visit on 22-8-23. This visit provide a thorough knowledge about research carried out in different sections. They got familiarized with aquaponics and biofloculation on aquaculture. Researchers explained the working of various instruments. Aquaponics is concept of merging aquaculture along with hydroponics sustainably reducing the water consumption remarkably than any other form of agriculture. Students are made aware of different types of siphon, maintenance of filtration system, record keeping etc.
